

NAYANA B BABU

Python Full Stack Developer

+91 8129381702 | nayanab.2502@gmail.com | Location: Thiruvananthapuram, Kerala

LinkedIn: nayana-b-babu | GitHub: nayana-b-babu | Portfolio

PROFESSIONAL SUMMARY

Python Full Stack Developer with hands-on experience in building web applications using Python (Django, Flask), MySQL, SQLite, HTML, CSS, and JavaScript. Developed multiple real-world projects including AI-based applications, hospital management, billing software, and inventory management systems. Skilled in developing database-driven applications and eager to contribute to a dynamic development team.

SKILLS

Frontend:	HTML, CSS, JavaScript, Bootstrap, React (Basics)
Backend:	Python (Django, Flask), REST APIs, OOP, Data Structures
Database:	MySQL, SQLite
Tools:	Git, GitHub, VS Code, PyCharm

WORK EXPERIENCE

Python Full Stack Developer Trainee at Wistora IQ Solutions	April 2026 – Present
--	----------------------

- Developed web applications using Python and full-stack technologies
- Worked with front-end technologies such as HTML, CSS, JavaScript and React (Basics)
- Acquired knowledge of database management and API integration
- Developed skills in coding, debugging, and testing
- Gained hands-on experience with web development projects and software development concepts

Robotics Instructor at Talrop	September 2024 - April 2026
--------------------------------------	-----------------------------

- Actively engage in teaching and applying programming concepts through robotics, including hands-on work with logic building, coding practices, and real-time problem solving.
- Continuously develop and refine programming skills by building and implementing code-driven solutions for automation and robotics-based applications.
- Guide students in developing strong programming foundations, including algorithmic thinking, debugging, and structured code development.
- Design and implement project-based learning modules that integrate coding with robotics hardware such as sensors and microcontrollers.
- Maintain ongoing involvement in coding by building, testing, and refining project solutions, ensuring up-to-date technical knowledge.

PROJECTS

AI Resume Analyzer (Full Stack Project)

- Technologies:** Python (Django), SQLite, HTML, CSS, JavaScript, Google Gemini API, pdfplumber
- Description:** Developed a full-stack AI resume analyzer with resume management, ATS score calculation, keyword analysis, and AI-powered resume suggestions.
- GitHub:** github.com/nayana-b-babu/ai_resume_analyzer

Hospital Management System (Full Stack Project)

- Technologies:** Python (Django), SQLite, HTML, CSS, JavaScript
- Description:** Developed a full-stack hospital management system with doctor management, appointment booking, user authentication, and patient record management.

- **GitHub:** github.com/nayana-b-babu/hospital_management_system

Billing Software (Full Stack Project)

- **Technologies:** Python (Django), SQLite, HTML, CSS, JavaScript
- **Description:** Developed a full-stack billing software with product management, invoice generation, billing history, and daily sales reporting.
- **GitHub:** github.com/nayana-b-babu/billing_software

Grocery Store Management System (Full Stack Project)

- **Technologies:** Python (Flask), MySQL, HTML, CSS, JavaScript, Bootstrap
- **Description:** Developed a full-stack grocery store management system with inventory management, product tracking, and order processing.
- **GitHub:** github.com/nayana-b-babu/grocery-shopping-webapp

EDUCATION

B.Tech in Computer Science and Engineering
LBS Institute of Technology for Women, Poojappura

Year of Completion: 2021
